

Ampegon AG is an international company situated in Turgi, Switzerland. The core business consists of the development, design, manufacture, installation and commissioning of high power RF systems and power supplies for over 80 years. Ampegon offers products and solutions for Science, MedTech, Industry and Broadcast markets.

Ampegon's Sales Team is involved in the development of cutting edge technology to support our clients: leading researchers and industrialists representing the forefront of scientific endeavour. We are a dynamic, flexible and friendly team, based in Turgi, Switzerland, and are currently recruiting a

International Sales Engineer (m/f)

Your responsibilities:

- Build and maintain relationships with potential customers, defining end-user application requirements, developing and proposing solutions
- Determine system specifications to meet customers' technical needs and budget
- Develop projects over multiple year timescales
- Prepare technical and commercial proposals, marketing materials, and competitive tender responses to exacting standards
- Travel internationally for conferences, customer visits and contract negotiations (up to 25%)
- Work closely with our commercial support and project management teams

Your profile:

- Technical background, ideally with an advanced degree in science or electrical engineering, and/or experience working in the fields of RF systems, power electronics or accelerator science
- Previous international sales and marketing experience, preferably for large capital equipment
- Excellent spoken and written English, German and other languages are advantageous
- Friendly, outgoing personality, with an interest in new high energy technologies

Benefits include an attractive salary and pension contributions, flexible working hours, and a stimulating technological environment. Help us work to develop the technologies of the future!

Does this profile describe you? For further information, please contact Dr. Simon Keens, Head Sales and Marketing, +41 58 710 44 87.

Please send your application and CV to Karin Meyer | HR | hr-tu@ampegon.com.
