

Acquisition of Strategic Assets of Ampegon AG by Energy Technology Srl

Turgi - Switzerland, and Bologna - Italy, July 11th, 2019

Energy Technology Srl, part of Aretè & Cocchi Technology group of companies, based in Bologna, Italy, announces that it has reached agreement with the shareholders of Ampegon AG for the acquisition of its strategic assets in Switzerland and Germany through an asset deal transaction.

Through its new, wholly-owned subsidiary Ampegon Power Electronics AG, based in Baden, Energy Technology commenced business activities on July 8th, 2019.

Together, Ampegon and Ocem are strengthening their world leadership in power electronics for science and broadcast systems. Their business is complementary in terms of technology, existing know-how and an extensive list of worldwide market references.

Ampegon and Ocem are developing and manufacturing a wide range of high energy power supplies, of both high voltage and high current types, RF amplifiers using electron tube and solid-state topologies, and shortwave radio transmitters for analogue and digital broadcasting. The companies develop both OEM components and integrated systems to meet the needs of emerging technologies and industries, especially in the fields of fusion energy, particle accelerators, high-field electromagnets, medical physics, and industrial RF.

About Aretè & Cocchi Technology | aretecocchitechnology.com

Aretè & Cocchi Technology, Italy-based and founded by Gino Cocchi, is a group of 11 companies with manufacturing plants in Italy, France, Switzerland, USA and China. It operates principally through 3 industrial platforms; namely packaging and automation robotic lines, airfield lighting and control systems, and power electronics.

About Energy Technology - Ocem Power Electronics Division | ocem.eu

Energy Technology srl operates two divisions: Ocem Airfield Technology and Ocem Power Electronics. Ocem Power Electronics was established in 1943 and designs, manufactures and installs power systems for customers around the world, specializing in customized solutions. Its power convertor technologies and power supply solutions are used in over 50 research facilities in more than 20 countries globally, and facilitate advances in the fields of plasma physics, particle physics and medical research, as well as modern industries such as transportation and food processing.

About Ampegon Power Electronics | ampegon.com

Ampegon Power Electronics AG, the Swiss subsidiary of Energy Technology srl, comprises the strategic assets of Ampegon AG. Ampegon roots can be traced back until 1937. It serves the global Science, MedTech, Industry and Broadcast markets with an extensive product range. As the world leading
